

Profile:

I am a web designer and graphics artist with over 10 years of experience in Film and Television Animation and effects. As an industry professional I have managed teams and projects of various sizes, and am experienced in workflow of creative projects, from inception to delivery. As a natural problem solver, I excel at thinking of new and exciting ideas as well as finding solutions for any challenge.

Skills:

- Creation of company concepts and branding including marketing strategies, wireframes, style guides, design templates, and brand logos
- Designing pages of websites to fit within a style guide as well as deliver all important content in an aesthetic and usable way
- Designing pages with the target audience and/or device in mind: Static layout, Fixed Width Responsive, and Fluid Responsive.
- Using rich interactivity such as Javascripting and JQuery plugins to add interactivity to a site

Recent Employment History:

McGill Centre for Integrative Neuroscience

2015 - Present

As the Webmaster for the MCIN, my duties include the creation, editing, and maintenance of various web-projects for a variety of internal and external initiatives. My goal is to create interesting and usable designs to help communicate information to the academic community and the general population as a whole. Further duties include graphic designs for logos, diagrams for papers/posters, as well as video editing for demos and promotional material.

Portfolio of work includes:

MCIN website	http://mcin-cnim.ca
Ludmer Centre Website	http://ludmercentre.ca
Montreal Alzheimers Research for a Cure	http://marc-fund.ca
LORIS	http://loris.ca
Canada China Cuba Axis	http://ccc-axis.org (in development)
Building 21	http://building21.ca (in development)
Acelab.ca	http://acelab.ca (MCIN network only)
